

16x Opto-Isolated Dry Contacts (E-OP16)

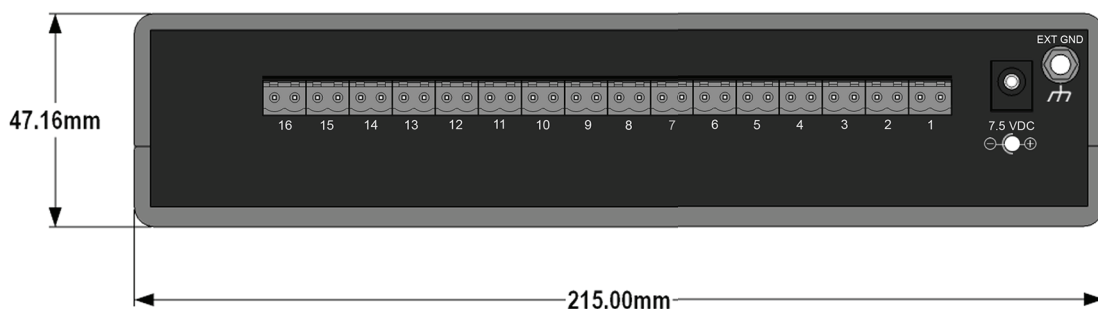

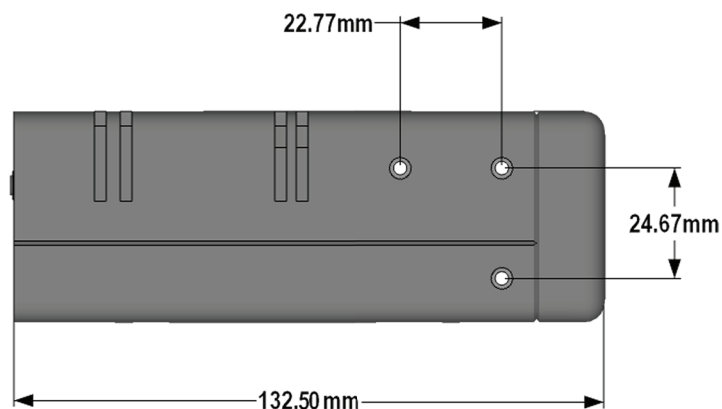

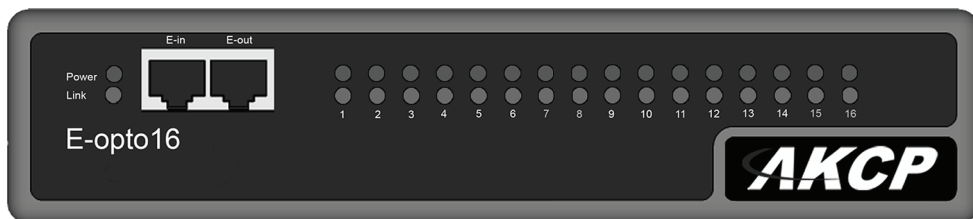

Optically isolated Dry Contact Expansion Unit.

Add isolated dry contacts to your securityProbe or sensorProbeX+. If your main device is some distance from the contacts you wish to monitor, save money and time in cable infrastructure by installing the E-Opto16 close to the contacts you wish to monitor and run only a single CAT5 cable back to the base unit. E-Opto16 devices can be installed up to 1,000ft or 300m from the base unit and daisy chained with a max distance of 1,000ft or 300 meters between each device.
