

## AXIS Q7424-R Mk II Video Encoder

## Full-featured video surveillance for tough environments

AXIS Q7424-R Mk II is a four-channel standalone solution that enables flexible migration of analog cameras into an IP-based video surveillance system. It is ideal for demanding applications such as city surveillance and transportation. It is designed to withstand tough environments including vibrations, shocks and extreme temperatures. All four video channels provide pan, tilt and zoom support for controlling analog PTZ cameras. The video encoder features an SFP slot for fiber connection, a memory card slot and Power over Ethernet. It offers tampering alarm, motion detection and audio detection, and supports AXIS Camera Application Platform that enables the installation of other analytics.

- > Rugged design
- > Extended temperature range
- > SFP slot for fiber connection
- > Edge storage
- > Power over Ethernet
