SAFETY PRECAUTIONS

Please read all instructions before attempting to unpack, install or operate this equipment and before connecting the power supply.

Please keep the following in mind as you unpack and install this equipment:

- Always follow basic safety precautions to reduce the risk of fire, electrical shock and injury to persons.
- To prevent fire or shock hazard, do not expose the unit to rain, moisture or install this product near water.
- Never spill liquid of any kind on or into this product.
- Never push an object of any kind into this product through any openings or empty slots in the unit, as you may damage parts inside the unit.
- Do not attach the power supply cabling to building surfaces.
- Use only the supplied power supply unit (PSU). Do not use the PSU if it is damaged.
- Do not allow anything to rest on the power cabling or allow any weight to be placed upon it or any person walk on it.
- To protect the unit from overheating, do not block any vents or openings in the unit housing that provide ventilation and allow for sufficient space for air to circulate around the unit.

REVISION HISTORY

VERSION NO.	DATE (DD/MM/YY)	SUMMARY OF CHANGE
VR0	13/11/12	Preliminary Release
VR1	18/12/12	Add D-sub to RCA adaptor
VR2	09/01/13	Add Support Timing Chart
VS3	24/06/13	Updated Format and Diagrams
VS4	29/07/13	RS-232 Command
VS5	23/01/17	Corrected diagrams and supported SDI standards

1. INTRODUCTION

This unit is an advanced HDMI, VGA, SDI, Composite Video, S-Video, and Component Video switcher/scaler. This device can scale and switch input sources and display them to its HDMI and PC (VGA)/HD (Component Video) outputs simultaneously, with their associated audio signals, at a wide range of output resolutions up to 1080p or WUXGA (RB). It also has the added benefit of an SDI Loop-through output for monitoring or extending the SDI input signal. Control is via the IR remote, RS-232, or via front-panel buttons and includes an on-screen menu (OSD) providing settings and system information.

2. APPLICATIONS

- Digital and analog signal convergence
- Convert analog video/audio signals for use with digital displays
- Integrate multiple sources and signal types to a single display in a meeting room or conference hall environment

3. PACKAGE CONTENTS

- 1×Multi-Format to HDMI Scaler
- 1×Remote Control (CR-117)
- 1×5V/3A DC Power Adaptor
- 1×15-pin D-sub to 3 RCA Adaptor Cable
- 1×Operation Manual

4. SYSTEM REQUIREMENTS

Source equipment such as Blu-ray/DVD players or SDI camera, VGA or HDMI display and amplifier/active speakers with connection cables.

5. FEATURES

- Supports HDMI, SDI, Composite Video, S-Video, and VGA/Component Video inputs
- Supports HDMI and PC/HD (with adaptor) outputs
- Supports SDI loop-through output
- Supports analog stereo and optical digital inputs
- Supports optical digital output, analog stereo output, or embedding to HDMI output
- Supports conversion of multiple video formats and audio input to HDMI or PC/HD and analog stereo outputs
- Supports EDID and HDCP
- Supports 3D de-interlacing, noise reduction and 3D comb filter
- Supports frame rate conversion
- Supports RS-232, remote handset, and front panel control
- Supports SDI Standards of SMPTE 259M-C, SMPTE 292M, and SMPTE 424M/425M-A
- Supports SDI bit rates at 270Mbps, 2.970Gbps & 2.970/1.001Gbps, and 1.485Gbps & 1.485/1.001Gbps
- Supports SDI signal input and output distances of up to 300m for SD signals, 200m for HD signals and 100m for 3G signals

Note: The unit was tested with Belden 1694A SDI cable, results may vary with cables of a different specification.

6.2 Rear Panel

- 1 HDMI OUTPUT:** Connect to an HDMI display or amplifier for video and/or audio output.

PC/HD OUTPUT: Connect to a monitor/display for video output. For HD (Component) output, use the supplied D-sub 15-pin to 3 RCA adaptor cable for HD resolutions from 480p~1080p.

L/R OUTPUT: Connect to an amplifier or active speakers for audio output in stereo format.

OPTICAL OUTPUT: Connect to an amplifier or active speakers for audio output in digital format.
- 2 SDI LOOP OUTPUT:** Connect to an SDI display for monitoring of the SDI input signal or an SDI extender for extending the SDI signal to further areas.
- 3 SDI INPUT:** Connect to an SDI camera or other SDI source for both video and audio signal conversion.

HDMI INPUT 1/2: Connect to an HDMI source such as Blu-ray/DVD player for both video and audio signal conversion.

PC INPUT: Connect to a PC/Laptop source for video signal input with a 15-pin D-sub cable.

L/R INPUT: Connect to source's L/R output with 3.5mm Mini-jack for audio signal conversion.

OPTICAL INPUT: Connect to a source's optical output for audio signal conversion.

YCbCr/YPbPr & L/R INPUTS: Connect to source equipment such as a DVD player for both video and audio signal conversion.

CV & L/R INPUTS: Connect to a composite video source such as video/DVD player for both video and audio signal conversion.

SV & L/R INPUTS: Connect to an S-Video source such as a video/DVD player for both video and audio signal conversion.

- 4 **SERVICE 1:** Reserved for manufacturer use only.
- 5 **RS-232:** Connect to a PC/Laptop to use RS-232 commands to control the device.
- 6 **SERVICE 2:** Reserved for manufacturer use only.
- 7 **DC 5V:** Plug the 5V DC power supply into the unit and connect the adaptor to an AC outlet.

6.3 Remote Control

- 1 **POWER:** Press this button to switch the device ON or to put the device into STANDBY mode.
- 2 **INPUT:** Press to repeatedly select the required input. An LED will illuminate to indicate the currently selected source.
- 3 **CV/SV/COMP/PC/HDMI 1/HDMI 2/SDI:** Press to directly select the required input.
- 4 **MENU:** Press this button to enter the on-screen menu.
- 5 **EXIT:** Press this button to exit the menu or the current selection in the on-screen menu.
- 6 **OK & ▲/▼/◀/▶:** Press OK to confirm the selection or use the directional buttons to navigate the on-screen menus.
- 7 **AUTO ADJUST:** Press the button to optimize the positioning of the picture (picture centering) on the screen.
- 8 **RESET:** Press this button to return the device to the factory default settings.
