

X-keys® One Button Switch

- Red: #XK-A-1581-1BRD-R
- Green: #XK-A-1581-1BGR-R
- Yellow: XK-A-1581-1BYL-R
- Transparent Lens: XK-A-1581-1BTS-R

An extremely rugged button switch for triggering actions on our [X-keys USB 3 Switch Interface](#), [USB 12 Switch Interface](#), [USB HD15 Wire Interface](#), or [USB GPIO](#). Built for applications demanding heavy and frequent pounding. Perfect for game show buttons or industrial triggers.

- Normally open switch with twelve foot wire to 3.5mm mono plug
- Includes non-slip backing and three mounting holes 1.7" apart
- Tested at over ten million operations

Changing the Lens

Use a stout paperclip or thick wire to poke the lens out from the back side of the switch.

Non-Slip Pad

The included non-slip pad may be applied to the switch base to prevent it from sliding on a desk or table top.

Mounting Options

Three mounting holes on the back side of the switch are spaced 1.7" apart and will accept a #6 threaded screw.

Specifications

Base Diameter	2.5" (64mm)
Cap Diameter	2.7" (69mm)
Lens Diameter	2.17" (55mm)
Height	0.8" (20mm)
Cord Length	12' (3.6m)
Connector	3.5mm mono
Switch Type	Snap dome warranted for over 10 million operations
Actuation Force at Center	Approx, 32 oz (900g)
Actuation Force at Edge	Approx, 14 oz (400g)
Mounting Screw if Required	#6 self-tapping x 3
