

**Surge Protector Series** 

# **User Manual**

Model: SP008

**HDMI Surge Protector** 

#### Introduction

SP008 is a surge protector designed to protect HDMI devices from high voltage surges, supporting resolution up to 4K.

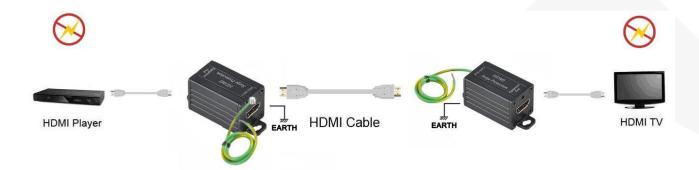

#### **Features**

- Resolution up to 4K.
- Built-in ESD, EFT (Impulse Noise) protection
- Response time less than 1 ns.

#### **Installation View**

- 1. SP008 Equipment End, connect to HDMI input/output.
- 2. Using one unit of SP008, Cable end connect to HDMI output side.
- 3. Using two units of SP008, connect the HDMI cable between two of SP008'S cable end.

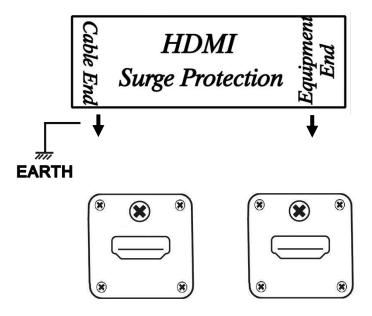

1

### **Recommend Cable:**

- 1. Recommend use high quality HDMI 1.4 cable.
- 2. In order to have the best protection performance, the HDMI cable between HDMI equipment and SP008 surge protector should be less 1 meter..

### **Panel Review**

#### **HDMI Cable Distance and Caution:**

- 1. For ensuring the unit can protect equipment, the earth cable must be connected to ground.
- 2. Based on 4K2K resolution, the HDMI cable must less 3.5M.
- 3. Based on 1080P resolution, the HDMI cable must less 5M  $_{\circ}$

## **Specification**

3

ITEM NO.	SP008	
Support		
Compliance	HDMI 1.4, IEC61000-4-2,IEC61000-4-4,IEC61000-4-5	
Response Time	Less than Ins	
ESD Protection	15 KV(ESD), 8 KV (Contact)	
EFT Protection	40A (5/50ns)	
Lightning Protection	5A (8/20 us)	
Surge Life	300 times (100A per surge)	
Ports & Interfaces		
Equipment End	1 x HDMI Type	
Cable End	1 x HDMI Type	
Ambient Temperature		
Operation	0 to 55°C	
Storage	-20 to 85°C	
Humidity	Up to 95%	
Physical Characteristics		
Dimensions	58.3 x 25.4 x 25.4mm	
Weight	35g
